

Curriculum Vitae – Robert Kenneth Howarth

Personal statement

I am a well-rounded, dedicated, and reliable individual. I am very keen on problem solving, which is why I chose to study engineering, however after working in the industry I felt I needed a faster paced environment. I thoroughly enjoy coding, which has led me to seek a career in software. I can work effectively both independently and in a team. I am highly driven and always want to achieve as highly as possible.
